

Nathan Littleton - Technical Requirements

I know you've got a million things to do! I'll work with you to make sure that my involvement in your event goes without a hitch. To make your life easier, I have a few small requests to help me present at my best:

- I prefer to run presentation slides from my own laptop. Alternatively, I can provide copies of my slides in advance of the event.
- If a confidence monitor is not available, the laptop running the presentation should be positioned on a table on the stage or in a position where it can be seen from my position on the stage.
- A bright, good quality projector, projected onto a large enough screen that everyone has full view of it.

On-stage requirements

- A clip-on lavalier or headset microphone
- A small side table
- Room temperature bottled still water

If you are unable to provide the above setup, please confirm this with me or my agent as soon as possible so that alternative arrangements can be made in good time.
